EPICommunity Use & Access

These terms of use set out the terms for use of the EPICommunity platform (thereafter "EPICommunity") and applies to all users of and visitors to the EPICommunity ('you'). Please read these terms of use carefully before you begin to use the EPICommunity.

The EPICommunity is based on the alpha version of the "EPICommunity Prototype" platform, created by Aristotle University of Thessaloniki (AUTh), supporting the functionality described in the deliverable "D2.5: EPICommunity design" in the context of the European Union's Horizon 2020 research and innovation programme under Grant Agreement No: 101016926, "EPICUR-Research" project. The Host and the Manager of the EPICommunity platform is AUTh, which is the Controller for personal data.

By using the EPICommunity, you accept these terms of use and agree to abide by them. Please do not use the EPICommunity if you do not agree with these terms of use. Access to the EPICommunity is on a temporary basis and the host reserves the right to withdraw or amend the service provided to you on the EPICommunity at any time. Sections of the EPICommunity may be restricted to certain users at any time. Any links within the EPICommunity to third party websites are not checked by the Host and the Host bears no responsibility for the content of external sites. If you access external sites through the EPICommunity, you do so at your own risk.

Disclaimer

AUTh forbids the usage of personal data in other contexts than the EPICommunity regarding third parties. In compliance with the GDPR, AUTh is not competent to guarantee the protection of personal data in the course of personal activity of the user that is involved in social networking and online activity undertaken within the context of such activity. Such further processing entails the automatic termination of the use of the EPICommunity. Against this background, the AUTh ensures only the protection of personal data given by its users with the view of using the platform within the limits set by the lawfulness of processing as defined in the GDPR (recital 18 and article 6).

Liability

The Host accepts no liability for any claims, penalties, loss or expenses arising from your use of the EPICommunity including: any reliance you might place on the content of the EPICommunity; use of or inability to use the EPICommunity; the downloading

of any materials from the EPICommunity; or any unauthorised use or access to the EPICommunity.
